His Lieutenants Bave Little Hope of Hill's Nomination.

THE REAL ISSUE IS ANYBODY TO BEAT CLEVELAND.

Murphy's Manifesto Answered by Whitney - The Ex-President's Followers Reinforced To-Day-Law Partner Bissell on the Ground-Palatial Quarters of the Hill Roomers-Roles and Grav-Kentucky May Capture the Temporary

cratic nomination has fairly begun along the advancing lines. The troops are moving in and sincerity for Grover Cleveland and no one else. The anti-snap contingent, says As usual the curious American mind is looking eagerly forward to the close of the conflict, and endeavoring to judge the results. It is too early for predicns. But it is not too early to scan the field, to note the alignment and strength of the forces marching hitherward, and while the air is measureably clear, to point out where the engagements are to be most sigcant and decisive. It is obvious the conflict is to be one of Cleveland against the And it is obvious also that the key to the situation is in a large measure held by the ate of New York and by the delegations

which are to represent it here.
Save for the fact that more booms are under way and that the men who love Cleveland for the enemies he has made are not particularly numerous, the anti-convention situation very closely resembles that which prevailed in the days preceding the assembling of the representatives of the Democracy of the nation in 1884 in the Exposition ilding on the lake front, within a stone's ing convention will assemble, and which resuited in the nomination of Grover Cleveland and his triumphant election. Then, as now, the anti-Cleveland element of the New York Democracy forced hostilities from the monent of its arrival; then, as to-day, it as-severated that he could not unite the Deracy of the Empire State and carry it in ovember; then, as now, it had but one "anybody to beat Cleveland." One conspicuous figure in the opposition that year-John Kelly-is missing, but his place is ably filled by Richard Croker, with Lieut. Gov. Sheehan and Edward Murphy. the parallel will continue until the end of convention the developments of the coming week alone can determine.

CLEVELAND PLAN OF CAMPAIGN. The Cleveland plan of campaign is perfect its outlines. The arrival of ex-Secretary of the Treasury Fairchild caused it to be in all its details. The reverses which the Cleveland people have met in Ohio and Arkansas show that it might be lacking in some features, but the supporters of the ex-President are sure that everything will go From now on none of them will be found rilling to admit that Cleveland has fewer than 500 votes in sight, or only 100 less than a

The tables which have been given out by the Cleveland leaders in New York and which mominated on the first ballot in order to be successful. The Tammanyites talk a little been skillfully put together so as to show 500 votes making allowances for various shifts. For instance, in one of the tables Illinois forty-eight votes are credited to Palmer and still 500 are figured up for Cleveland. In another table the forty-eight Illinois delegates are put down for Cleveland, but the total is still only 500, allowance being made in this tabulation for some doubtful delegates in the Southern States, which had heretofore been claimed for the ex-President. The managers of Mr. Cleveland's campaign know that the opposition is doing its best to keeping one-third of the delegates against Cleveland, with the idea that by a solid column of this sort increases may be made which will divide the strength pretty evenly. To offset this their efforts are directed to showing up 500 votes which can be held together on all the ballots. They argue that all they have to do is to walt and the nomination will come their way.

TAMMANY'S SOLID SHOT.

Naturally enough the statement of the anti-Clevelandites from New York and which was made public last night after hours had been spent in its preparation and revision, is the sensation of the moment at the various head-quarters. It was the first solid shot of the campaign. That it was a strong document is generally admitted. At the same time those who expected something startling are free to confess that it contains nothing more than a summary of the objections and declafations that the Tammany Hallites have been putting out for months past. Ex-Secretary of the Treasury Fairchild, who may be rewere distributed in Chicago yesterday have en skillfully put together so as to show 500

that the Tammany Hallites have been putting out for months past. Ex-Secretary of the Treasury Fairchild, who may be regarded as one of the principal mouth-pieces of the Cleveland element is emphatic in the opinion that the pronunciamento of the New Yorkers will certainly do no harm to the cause of the ex-President, while it may possibly do no harm to the cause of the ex-President, while it may possibly be used to his advantage among the uninstructed delegates. It is, he says, nothing more than the regular stereotyped Tammany kick, and which is now regarded as a concomitant of every Nationa mocratic Convention. They took the same course, he says, sixteen years, when they antagonized the prevailing sentiment for Tilden and loudly proclaimed that he was not the choice of New York. On that occasion their opposition was kept up after the cam-paign, but, notwithstanding this fact, the numerous speeches made by John Kelly against the Sage of Gramercy Park, the latter against the sage of Gramercy Park, the latter carried his State by a majority of over thirty thousand. Eight years ago, so also Mr. Fair-child reflects, Tammany was in the fron rank of the opponents of Grover Cleveland, and notwithstanding which he was both nominated and elected.

Tammany was favorable to Cleveland four years ago and he was defeated, just as was Hancock, their favorite son, in 1890. The ex-becretary is, therefore, inclined to look upon the support of Tammany as a withering blight, and upon its bitter antagonism, whether to Grover Cleveland or to any other hether to Grover Cleveland or to any other andidate, as a good omen. In fact he is percity willing that Croker and his following have arrived in Chicago. As at Minneapolis the men of the South hold the balance of power, and as a consequence present the most promising field for the labors of the

through trying to prevent the national De-mocracy making fools of themselves. The interposition of the Great Reaper enabled him

AWAITING REINFORCEMENTS.

Nothing will be done by the Cleveland fol-lowing in the direction of making a reply to the Tammany manifesto until the arrival of the anti-snap delegation. Ex-Secretary

Fairchild, however, is already at work upon to his colleagues as soon as they get in, which will probably not be until Sunday afternoon. It is promised that the rejoinder will be just convincing than the original document. It will take the ground that, Tammany to the contrary notwithstanding, Grover Cleve-

land is in New York to-day by far the strong est of all the candidates whose names are likely to go before the convention. The cor rention campaign will be fought out solely on the ground of tariff reform, of which New York, which must be of neces sity the principal battle ground, the large independent vote can be secured only by this issue. This vote will be declared in all earnestness as a faction, but as a body of men of weight and influence, who regard party success as nore important than the ambition of any in dividual, and who are unselfishly devoted to the interest of the party as a whole.

Mr. Fairchild expects to be joined this afternoon by ex-Mayor Grace, E. E. Anderson and two or three others of the advance guard of Cleveland's lieutenants. anxious for a preliminary conference to outline a plan of action for ascertaining the exact Cleveland sentiment in the various delegations. When this has been accom plished the leaders will know just how much missionary work remains to be done, and where it is most needed. It is likely that a leaf will be taken out of the book of plans and policles which was used to such good effect by the Harrison brigade at Minneapolls, and that the now famous Market He conference will be duplicated here in Chi-

IN THE HILL CAMP.

The Hill men from New York are displaying more energy than the Cleveland men. Handsome lithographs of David Bennett Hill were hung in shop windows and all conspicuous places in ali parts of the city to-day. Hill's strongest lieutenants from all over the Empire State are here. The Cleveland people seem to be asleep. The only persons to be found about the Cleveland headquarters to-day are the pretty typewriters. Up to noon to-day there are only about seventy-five delegates from New York. With this good start made by Hill, Cleveland stock is not quoted so high as it has been. The fight against Cleveland is very similar to the one that was made against Harrison at Minneapolis. The crowd was with Binine, but the delegates with Harrison. The New Yorkers are just as determined to defeat Cleveland as was Platt and Quay wanted Binine the New Yorkers want Hill, but the main thing is to defeat Cleveland. They think they will succeed by inducing several other candidates to euter the field. This at least is the play now, but is subject to change at any time.

Mr. Croker made a sighificant remark this morning when he said: "Even if New York cannot name Hill it can dictate the nominee and it won't be Cleveland."

Which indicates that New York might go to some one like Morrison or Gorman. The Tammany men are depending upon Brice to cast the solld vote of Ohlo for Campbell believing that he will draw some Southern votes away from Cleveland. The New Yorkers are encouraging the friends of the other presidential aspirants with the belief that the one of them who develops the greatest strength on the first ballot will get the support of the New York delegation.

Croker also said this morning that he had always believed that Cleveland had to be nominated on the first ballot in order to be successful. The Tammanyites talk a little differently this morning from what they did yesterday. They feel so confident of downing Cleveland on the first ballot in order to be successful. IN THE HILL CAMP. The Hill men from New York are displaying

nominated on the flammanyites talk a little successful. The Tammanyites talk a little differently this morning from what they did Played at the Outset of the Great Political

President makers. The anti-Cleveland men think if they can keep the Southern delegates from Cleveland on the first ballot or until the impossibility of his candidacy is made apparent they can then be swung into line for some more available candidate—perhaps a Western man. These anti-Cleveland men point out that probably the delegates from neither the Carolinas will vote for the ex-Fresident, and that he cannot secure more than one-half the vote of Georgia, Alabama and Virginia. This process will so reduce Cleveland's votes from the South as to prevent his nomination. They say Mr. Gorman will divide the Southern delegates with Cleveland and Senator Carlisle will secure not a few. On the round-up-the issue will be according to the scheme of the anti-Cleveland men between Gorman and a Western man.

But on the other hand it is claimed by the

friend.
"I do not come to Chicago merely to aid in the nomination of Mr. Cleveland because he is my friend," said Mr. Bissell, "but for the reason that I believe he is the man whom we can rely on to bring us victory. He certainly would receive the votes of the independent citizens in New York State in addition to the Democratic vote. In Buffalo I have come in contact with great many. would receive the votes of the independent citizens in New York State in addition to the Democratic vote. In Buffalo I have come in contact with great many prominent men who are allied to neither party and they tell me they have confidence in Cleveland and will vote for him. I have just glanced over the manifesto issued by Messrs. Murphy, Sheehan and Croker. It is the same old story they have been telling for months. The assault on the so-called mugwumps is not unexpected, but I am quite surprised that such astute politicians as Hill's friends are credited with being should ignore the force and power of the independent vote in New York. That vote in our State is more potential than in any other State in the Union."

Mr. Bissell regards the nomination of Cleveland as the logical outcome of the Democratic convention in view of the action of the Minneapolis convention in selecting a high protectionist to head the Republican ticket on a high tariff platform, or "unless

advocacy of tariff reduction."

Mr. Bissell attributes Cleveland's defeat in 1888 to the action of the liquor men, who fought him to a man, but since then, be claims, Cleveland has gained in strength and he would sweep New York like a whiriwind. Mr. Bissell took a fiyer at the methods of the Hill-Flower machine in New York in the present contest. "All of the Hill shouters who are coming here are drawing salaries can be a supported by the salaries who are coming here are drawing salaries." the fresent contest. "All of the Hill shouters who are coming here are drawing salaries from the State of New York," he said. "canal commissioner, state railroad commission agents, city hall workers and men of that class are coming on here to whoop it up for Hill. Cleveland's friends are coming here because they represent a principle and each man pays his own expenses."

TAMMANY'S STRONG CARD.

CHICAGO, Ill., June 17 .- The Tammany manifesto, as it is called, issued last night by Hill's lieutenants, is in the form of an interview with Chairman Murphy of the "Snap" Convention, or regular New York delegation Its chief points are put forward in this way "The nomination of Mr. Cleveland would mean the destruction of the great organiza-tions of the Democratic party under which the party has won victories by increasing majorities for the last seven years. It would not be possible for Gov. Hill and every member of the national delegation talking from now until the day of elec

President makers. The anti-cleveland men think if they can beep the Southern delegates it than the can man the more available candidate—perhaps a Western man. These anti-delegates from neither the probably that over for the ex-President, and that he cannot secure more than one-half the vote of the ex-President, and that he cannot secure more than one-half the vote of the south as to prevent his nomination. They say Mr. Gorman will divide the southern delegates from the south as to prevent his nomination. They say Mr. Gorman will divide the southern delegates will secure not a few. And sonator Carlisie has the continue of the candidate, because the say of the south and it is claimed by the Cleveland men between Gorman and a But on the other band it is claimed by the Cleveland men between Gorman and a But on the other band it is claimed by the Cleveland men between Gorman and a But on the other band it is claimed by the Cleveland men between Gorman and a But on the other band it is claimed by the Cleveland men between Gorman and a way the continue of the contrary as I can not the first of the contrary as I can latte from perfonal knowledge. Last fall, Mr. Murphy and hot an agreeable one. You know that or people appreciate more than anything else knightly and chivarious qualities in a man. I say it with all students of the contrary as I can latte from the contrary as I can latte from performance of the women liked him, and his man between the contrary as I can latte from performance of the contrary as I can be state committee the same of politics for every point it was worth the contrary as I can be state committee the same of politics for every point it was worth the contrary as I can be stated to be contracted as a men skillf that his interview is an insult to the regular Democracy to the State of New York. There are two prominent men in the Hill organization who are regarded with suspiction by the Democracy in general on this point. The men are Mr. Murphy himself and Lieut. Gov. Sheehan. There is a general impression in the State of New York that they were treacherous to the national eral impression in the state of New York that they were treacherous to the national ticket in 1888. And I think it not unlikely that they will be so again this year, if they do not happen to be pleased with the nomination made, but they will not be able to carry with them as many Democrats as they were before, and I have yet to find any evidence that they would be supported in treachery by Tammany Hall or the Kings County organizations.

Tammany Hall or the Kings County organizations.

"It is noticeable that these two men are the men who refused to tell a New York Worth reporter whether or not they would support Cleveland. I entirely agree with Mr. Murphy as to the inadvisability of the campaign which the mugwamps in 1885 made against Gov. Hill, but no man knows better than Mr. Murphy that their opposition was open and above board. The man who pretending to be a friend slips his stilletto in your back, is a man who is known only among Mr. Murphy's own followers. His power for evil is minimized this year by the new ballot reform. He is a man who will be treacherous to any one and there is no use trying to humor him in a nomination because he will not, until election day, know use trying to humor him in a nomination because he will not, until election day, know whether he will be true or false. Other Democrats in the State of New York will vote for Mr. Cleveland if nominated, and he can hold an Independent and Republican vote of a size never known before in the National campaign. Nobody else can do this, or come anywhere near it. For that reason, although there are many Democrats whom I would have personally preferred to Cleveland for a presidential nomination, I have no doubt that he is by far the most available candidate for the State of New York."

The Tammany men are much disconcerted The Tammany men are much disconcerted over the announcement that ex-Secretary Whitney will be here this afternoon to take charge of the Cleveland campaign.

PALATIAL QUARTERS OF THE HILL MEN AT THE CHICAGO, June 17 .- Richard Croker was the first of the Hill delegation to appear on the marble stairway of the Auditorium this morning. His black straw hat sat a little to one side of his head, which gave him a jaunty air, quite new to the boss, whom no one would accuse of levity, either in appearance or speech. He had left Corporation Counsel Clark buried in the pillows, and Sheehan in the effort of subduing one great lock of that auburn hair which insisted on whether or not the name of soander John

Pushing the Claims of Boles, Gray and

CHICAGO, June 17 .- So far an enthusiasm and energy and sincerity are concerned the Boles boom is flourishing like a green bay ree. More activity is displayed at his headlowans are making a clean canvass attacking none of these candidates, but putting in their best efforts toward whooping up their own favorite son. They say they have nothing Cleveland, beyond the fact that he has once led his party to defeat, and that he has seriously hurt himself in the West by his stand on the silver question. Apart from New York, they say, he is not nearly as strong in the political affections of the great masses of Democratic voters as he was either in '84 or '88, and his selection for a third term would be something more than a mistake. Gov. Boles, on the other hand, they say, has been steadily growing in strength in the West of late years, and the only logical outcome of the present situation is the selection of a Western man. They believe that Boles their best efforts toward whooping up their of a Western man. They believe that Boles vill not only carry Iowa, but the entire

come of the present situation is the selection of a Western man. They believe that Boles will not only carry Iowa, but the entire Northwestern tier of Republican States, and upon this belief and claim they will go into the convention. So far only the twenty-six votes of Iowa and the sixteen of Nebraska have been conceded to Boles. State Senstor Shields, however, insists that the lowa man will go into the convention with nearly one hundred votes, and that he has scores of telegrams and letters from delegates who have voluntarily placed themselves on record as being for Boles as a second choice. The bulk of the lowa delegation, with a body guard of a couple of thousand enthusiastic adherents of the Hawkeye Governor, will arrive to night, and from that time on the Iowans promise to make Rome how!.

The boom for ex-Gov. Gray of Indiana is barely in its budding stage, although gaudily decorated headquarters have been opened at the Palmer House for the Indiana delegation. A big consignment of lithographs of the ex-Governor were delivefed at the rooms by an express company this morning, but they will not be put out yet awilite and the only picture that decorates the rallying ground is one of the late Thos. A. Hendricks. Whether or not Gov, Gray's name shall be formally presented to the convention will not be fully determined till the full meeting on Sunday. If the decision is in the affirmative, however, Senator Voorhees will be assigned to do the cratorical honors. Under the instructions adopted by the recent State convention the delegation is to present an Indiana candidate only in the event of the sentiment drifting in favor of a Western man, otherwise it is to stand by Cleveland as the logical candidate. These instructions are differently interpreted by the Indiana men who are already on the ground. Some of the elegates, however, are said to be for Cleveland to the end.

It is noticeable that there is more talk of Gray for the second place on the ticket than for the first, and Delegate-at-Large Samuel E. Morris of

opposed to Gray so that it is very doubtful whether the caucus can put them into line to put Gray in a solid vote.

Charles Jowett of New Albany, delegate-atlarge and chairman of the Indiana State Committee for several years, this alternoon said: "Gov. Gray is a candidate for President and not for anything else. He will be presented to the convention when the States are called by Senator Voorhees, and he will receive the vote of a large majority of the delegation, and we hope that the solid vote of the State will be cast for him. His candidacy is not in the interest nor is it in special opposition to that of any other man. The indiana Democrats base their claim for his nomination upon the belief that the sober judgment of the convention will be against the nomination of either of the candidates who live in the State of New York. Indiana is second only to New York in importance to the Democratic party, and with Gray we can defeat Harrison in Indiana. How he will run in other States we leave to the delegates from those States to determine, but we claim for ourselves what we accord to them, the right to determine what is best in our own State."

"What of Gov. Pattison?"

"He is very seriously talked of in many quarters. If anything should occur to prevent Cleveland's nomination Gov. Pattison would, I am sure, receive most favorable consideration. Except Cleveland, I know of no stronger or more available candidate, and I know the same view is held by many of Mr. Cleveland's triends. Of course, as frequently stated, Gov. Pattison's name will not be used in any way whatever to the prejudice of Mr. Cleveland's candidacy; in fact, Gov. Pattison himself would not permit it to be used. As I understand the sentiment among the national delegates from this state they will vote as a unit for Mr. Cleveland and will give him their cordial and loyal support."

"What of the unit rule?"
"What of the unit rule?"
"There has been some little talk of opposition to it from some of the delegates.
There has been no such talk except by two or three of the delegates with whom the wish or three of the delegates with whom the wish or three of the delegates with whom the wish is father to the thought. The question of unit rule was effectually disposed of by the Democratic state Convention, which elected the entire delegation of sixty four members. Furthermore, let me make the prediction that there will be no effort made by any of the State delegations at Chicago to interfere with the operation of the unit rule. Even were it abolished it would make little difference so far as the Pennsylvania delegation is concerned as not less than fifty-six of the fifty-eight of the delegation would be found in entire according to the state of the delegation would be found in entire according to the state of the delegation would be found in entire according to the state of the st

delegation would be found in entire according on almost every question."
"Who are most frequently talked of for the Yice-Presidency?" was asked of Mr. Harity.
"Gen. A. E. Stevenson of Illinois, ex-Gov. Isaac P. Gray of Indiana, Ex-Gov. Campbell of Ohlo, and Gov. Boles of Iowa are among the names which are prominently mentioned, but it is too early to make a prediction as to who will be selected."

Irish of California were the main speakers. The California and Nevada delegates are solid for Cleveland. A big contest is expected from Utah between the straight and Tuscarora Democrats, which will create similar interest to the contest from Utah at Minneapolis. Two trains of five sleepers each, bearing the delegations, left last night for the Chicago Wigwam.

NEW YORK, June 17 .- A number of delegates from the far West to the Democ convention are in this city evidently with a view to study the situation in New York State before making up their minds who to sup-

view to study the situation in New York State before making up their minds who to support as a presidential candidate.

One of them is ex-Gov. Hauser of Montana, who leaves on Saturday for Chicago. Speaking of the feeling in his section Gov. Hauser said: "The people in my section naturally lavor a candidate who is regarded as a lavorable to sliver. However we are willing to subordinate everything to the most important question of selecting a man who can win. Aside from his views on sliver, Mr. Cleveland is highly regarded by all Democrats and would receive loval support from Montana Democrats if nominated. However, the great opposition which either Cleveland or Hill would doubtless meet in their own State is a serious obstacle to the selection of either, I am afraid, and it would probably be wiser to select a candidate from the West."

"Who, for instance?"

"Well, Boles, for instance. He would not veto a free coinage bill. He was elected on a free silver platform and would receive the hearty support of the silver states.

Mr. T. J. O'Donnell, delegate at large from Colorado, leaves for Chicago to-morrow morning on the Pennsylvania Limited. He was asked how many silver States would cast their votes in the convention for Cleveland. His answer was: "As the Irishman said, ivry one of them but one, but that one is narry one."

UNANIMOUS DECISION OF MICHIGAN'S SUPREME COURT.

Presidential Electors Can Be Chosen by Districts-The Court's Conclusions Favorable to the Democrats-Senator Spooner Foretalls Republican Suc cess-General Political News Notes.

Lansing, Mich., June 17.—The Supreme Court filed an opinion this morning sustaining the Miner electoral law. The opinion was written by Judge Montgomery and concurred in by all the other Justices. The greatest importance is that relating to the true interpretation of Sec. 1 of Art. 2 of the Federal Constitution, which provides that as the Legislature thereof may direct a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress." In the judgment of the court these words are clearly susceptible of a conture power to say how the State action shall would be a strained construction which teenth amendment the effect to annul the power expressly delegated in sec. 1 of art. 2 of the constitution. It is clear that the fifteenth amendment was intended to preclude the State from making any discrimination against citizens on account of color. By neither amendment was there any attempt to place limitations upon the authority presidential electors are still regarded as

In the decision it is admitted that the act is as it attempts to name a date for meeting of electors and method of certifying their ac-tion, but holds that does not render the act that where the law of a State conflicts extent of such conflict. The Miner electoral law divides the State into districts and pro-

divide the State's vote in the Electoral Col-lege between the two great parties. The ac-tion was brought by the Republicans to set aside the law. It is not thought that any further contest will be made. The court politically is three Republican and two Democrats. The Miner law was passed by the last Legislature, which was Democratic.

should Mr. Boies succeed at Chicago." in speaking of the nomination for Vice-resident, Mr. Spooner said: "Wherever I have been since the convention I have been pleased to note the uniform satisfaction which is expressed regarding the nomination of Mr. Reid. He is going to add strength to the ticket, both East and West. His was, in my opinion, a most fortunate selection."

A well-known politician who has been a critical observer of many presidential campaigns, remarked to Mr. spooner that the man who could command the full Republican vote this year was sure of election, and that Harrison would have no difficulty in doing this, "That is my idea of it exactly," replied the ex-Senator. "The Republican party is united for the President's re-election and it is invincible."

AN AGED WIDOW SHOT TO DEATH-THE CRIM-INAL RECORD

HATFIELD, Mass., June 17.—Mrs. Michael Larkin, a widew, was fatally shot last evenning. The man supposed to have shot her is missing. Mrs. Larkin was 75 years old. Her husband died several years ago and the old woman had arranged to have her property go to David Cahill, who married her niece. Cahill and his wife lived on the farm, which Cahill and his wife lived on the farm, which he managed. Neighbors saw Cahill enter the woods about the time of the murder and they think they heard shots afterwards. The theory is that he killed the old woman and committed suicide. Mrs. Cahill, who was in another from .asys she heard firing after supper and found her aunt sitting in a chair, the blood flowing from her head. Dr. Seymour of Northampton found two bullet holes in the woman's head above the left eye. She will die.

THE HALL PACKED.

High and Normal School Graduating Ex

One hundred and forty-seven graduates of the High and Normal schools were presented with diplomas at the closing exercises held in the Music Hall this morning. The grand hall never looked more beautiful than it did when all the pupils of the High and Normal schools, numbering about eight hundred, were seated on the stage, the girls dressed in their white costumes, with a bit of color here and there and the immense auditorium packed with ladies in their light summer dresses of every hue, waving vari-colored fans. Though the heat was almost overpowering it was forgotten when the exercises began and the essayists or orators were delivering their thoughts on the subject of their selection. From the files, over the heads of the pupils on the stage, hung the motto 'Hodie non cras,' (To-day, not to-morrow) worked in

cras," (To-day, not to-morrow) worked in flowers and evergreens. The exercises were opened with a hymn, "The Lord Is Great," sung in chorus by all the scholars.

THE ESSAYS AND ORATIONS.

The first essayist was Miss Myrtle Lee, whose subject was "Society and Solitude." Her argument was that solitude was of more yal ue to the individual if spent in thought and study then the society of these who think study than the society of those who think that the greatest achievements of life are to

sing, dance, act and dress.
"American Advancement" was the subject of Maj. G. Seelig's oration, and he did it justice in the few minutes allotted him. He spoke of the heroes and heroic days of the nation, and touched upon the advancement made since the struggle for liberty up to the present time in science, art, mechanics. The advancement made in America in every department of life, he said, was the marvel of the civilized world.

partment of life, he said, was the marvel of the civilized world.

Miss Mamie A. Quinn's essay "Far-Off Hills Are Always Green" was a lesson in patience. It was common to the mind to believe that things out of reach or far away seem brighter than they really are, and when reached they were often found to be more barren than the "green hills" recently deserted.

Harry L. Stern's oration on "Immigration" was delivered with spirit and was replete with facts. He argued in favor of a limitation. Only the poorer classes emerated from their native countries, and the fewer of this class admitted into this country, the better it would be for the poor laboring classes here.

the better it would be for the poor allowing classes here.

Miss M. Ethel Coulter's essay, "Air Castles," was a thoughtful argument against the construction of airy nothings with a gentle hint to mistake not the building of etherial architecture for ambition, and to indulge in the occupation of castle building only to that extent where it will give vigor to ambition.

Ascene from Schiller's "Jungfrau von Orleans" was read in German by Misses Greiner, leans" was read in German by Misses Greiner,

A scene from Schiller's "Jungfrau von Orleans" was read in German by Misses Greiner, Klein, Surkamp, Teichmann, Weilmeyer and Zatt. The young ladiespecited the parts with spirit but with no attempt at dramatic interpretations. It was a surprise to the audience, as it was a new feature in graduating exercises and was heartly applauded. Beethoven's grand hymn, "Giory to God" was sung in chorus by the 800 or more pupils in perfect unison and with a very pleasing effect.

Miss Alice C. Fechtenkam in her essay entitled "Echoes" told how the past influenced the acts of the world at the present day. How the achievements of dead nations when in the height of their power and glory stirred the passing generations of this era to qual and surpass the records of everything done before.

equal and surpass the records of everything done before.

Henry A. Peterson's oration on "Garfield" was a brilliant eulogy on the martyr President. He spoke of the eminent man's character and learning, and of his strength and purpose, saying his was a character worthy of emulation.

Miss Mary Ethel Hudson in her essay "Genius Comes in Constellations," told many interesting and historical facts, showing how sculpture first thrived in Greece, and at its death Rome's water painters sprang into life, to be followed in later years by great generals in wars and later by the great literateurs of England and America.

Mr. George P. Breckenridge delivered an oration on the "Mechanical Idea," saying the trend of the rising generation was to mechanism and the study of laws of force, since mechanical power has been so generally applied to everything, even to the privacy of the home.

Henry N. Lyman expressed a few thoughts

Henry N. Lyman expressed a few thoughts on the labor question, showing he had given Henry N. Lyman expressed a few thoughts on the labor question, showing he had given his subject some study and was ready with a suggestion for a solution of the problem.

Miss Ethel Percy Brigham's essay named on the programme as "A Burning Question," turned out to be a strong plea for woman's rights. Miss Brigham gave some very strong points in favor of woman suffrage from a woman's point of view and said it was only a question of a short time when she would be on an equal footing with the stronger sex.

During the exercises several choruses were sung and the manner in which they were rendered reflected credit on the teachers who have trained the pupils in that class of singing.

sung and the manner in which they were rendered reflected credit on the teachers who have trained the pupils in that class of singing.

At the conclusion of the programme Mr. Richard Bartholdt, President of the School Board, was introduced and awarded the diplomns to the graduates of the High School. School Director Walter F. McEntire was next introduced and presented the graduates of the Normal School with their diplomns, but before doing so he made a few remarks, saying the teachers of these schools deserved great credit for the work of the past year in preparing such a large number of young people to start in a new life.

WAR IN THE FOLD.

The Water Tower Methodist Church Stirred by Dissension

SUNDAY-SCHOOL SUPERINTENDENT AT OUTS WITH THE PASTOR.

The Former Expelled After an All Night Trial-An Appeal Taken and a Division in the Church Threatened-Petition for Pastor Corrington's Removal Circulated-Supt. Lacey's Story.

The little Water Tower Methodist Church,

located on the corner of Obear avenue and Twentieth street, is in the throes of a church war which will now require the gravest action of the Methodist Quarterly Conference to settle. The trouble seems to have been brought about by the peculiar efforts of some of the church members to secure a change of pastors. On one side of the difficulty is the pastor himself, Rev. J. F. Corrington, and on the other Mr. Elmer E. Lacey of the commission firm of Melton, Barrett & Co., who was until recently super intendent of the Water Tower Church Sunday-school and a trustee and steward in the church board. At present, however, Mr. Lacey stands under virtual sentence of ex-pulsion from the church, the result of charges of creating dissension and circulat

ing damaging statements against the pastor, brought by the latter and tried before a committee appointed by the Presiding Eider, Rev. O. M. Martin of Clifton Heights. The trial was held in Trinity Methodist Church, corner of Tenth and North Market streets, and was presided over by Rev. Frank Lenig of Clitton Heights, and so important was it considered that its concluding session lasted from 70 clock p. m. of May 26 last to 70 clock a. m. of May 27, withut adjournment. At its close the verdict as rendered supporting Rev. Dr. Corrington was rendered supporting Rev. Dr. Corrington in the two most important charges preferred against Mr. Lacey, but recommending clemency in case the latter would accept the verdict as a rebuke and go back into the fold. Mr. Lacey, refusing to do this, and making an appeal through his counsel, Mr. F. M. Doan, he stands under sentence of expulsion until the appeal can be acted upon by Bishop John P. Bowman of Omaha, Neb., and the case finally disposed of by the Methodist Quarterly Conference, which meets in August or September next.

WANTED ANOTHER PASTOR.—

The trouble seems to be the result of the failure of the last quarterly conference, which met May 12, to change Rev. Dr. Corrington to some other thurch and give the Water Tower congregation to a new pastor. It appears that a faction of the church, headed by Mr. Lacey, wanted this change to be made, and although they indorsed a resolution commending the pastor's work for the church, there were private representations made to the conference that it would be best for Mr. Corrington to be transferred, It cannot be learned that any charges were preferred against the pastor, save that he was not acceptable to a certain proportion of the congregation, and when the conference refused to transfer him to some other church; this element, headed by Mr. Lacey, went to work to secure that transfer by the Bishop. A petition was circulated among the congregation, asking that the transfer be made, and was then forwarded to Bishop Newman, at Omaha. The charges brought by Rev. Dr. Corrington against Mr. Lacey then followed, succeeded by the trial and verdict against the latter. Last night there was a meeting of the church addressed by the presiding elder, Rev. Dr. Martin, who took occasion to state that there would be no change in the Water Tower Church pastorate this year, and it is now said that a large proportion of the congregation who indorse Mr. Lacey's warupon Rev. Corrington are threatening to secede from the church and connect themselves with some other congregation.

Rev. Dr. Corrington was seen this morning by a Post-Disparton reporter and stated that he feared no division in the church. "The verdict against Mr. Lacey and some others, and I am willing to leave the whole matter to the Bishop or the quarterly conference. The church's in no danger of suffering."

Mr. Elmer E. Lacey, when seen this morning, was averse to discussing the matter for publicat

the presiding elder, objecting to Dr. Corrington's reappointment. He was returned to us for another year, but the elder sent us a letter saying that there was an understanding between himself and the bishop that it would be the pastor's last year at Water Tower Church. Last March, before the last quarterly conference he asked a member of the board if he could get from the conference a resolution and letter of recommendation that would assist him in other fields. As we were not unfriendly to him this was agreed to and the matter passed at the session, but Dr. Corrington, who was present expressed neither acceptance nor thanks. When the annual conference was held we felt sure that he would be removed on the strength of the understanding of the year previous, and the presiding elder and myself had several talks over the kind of a preacher the church would like. We were surprised at the conference's action, and at once protested. I attended to the Sunday-school the same as before, but refused to stay for preaching; a good many others did the same. The result was that Dr. Corrington preferred three charges against me to the presiding elder. He appointed Dr. Frank Lenig, preacher in charge who in turn appointed a select committee of nine members to investigate the charges against me. The trial came off on the evenings of May 26 and 27 in Trinity Church. Dr. Corrington appearing as proccutor.

"The charges were first insubordination,"

the evenings of may 2s and 2s in Frinity Church. Dr. Corrington appearing as proceditor.

"The charges were first insubordination," second, 'Sowing seeds of dissension; third, 'Defamation.' The trial was not concluded until early Saturday morning, the result being my conviction by a vote of five to four on the second and third charges. They offered me clemency, but I refused it and appealed the case. The charges are very filmsy affairs, when the evidence on which they were based is considered. By sowing seeds of dissension was meant the example 1 set by refusing to stay for service, the pastor claiming that I thereby kept others from attending. To support his charge of defamation, the pastor could not prove that I had spoken maliciously of him to others, but only that I had personally told him that he was unprincipled and not acting honestly by the church in holding on to the appointment when he understood his removal was wanted. I can safely say that three-fourths of the people are opposed to Dr. Corrington's course and that I and my friends have the support of the best people in the congregation.

RECORDERS AND CIRCUIT CLERKS. They Will Hold a Convention at Sedalia on July 12.

A convention of the Recorders and Circuit Clerks of the State has been called to meet 12 at Sedalla, Mo. Thus responses from 103 out of the counties have been received. Recorder W. H. Hobbs, speaking of the object of the convention, said to-day that it was to take steps to secure legislation regarding the control of the office, especially in the matter of recording deeds. That matter at present, he stated, rested entirely with the recorder, that is in relation to seeing that the records were kept straight. The matter, he stated, is in a very bad condition, as a corrupt official might allow a great many improper methods to be used which would work great injury. Under the present system, according to the Recorder, the safety of the records depends largely on the vigilance and integrity of the official in charge. Just what changes are proposed have not been suggested, but will be discussed at the convention.

Celebration. We understand that our city fathers are onsidering some new ways in which to mark the coming celebration of the Fourth of July. There have been so many complaints about our city drinking water that some measure attendance from the neighboring towns. It has, therefore, been deemed expedient to make a contract with the Hygela Co., who have recently opened a St. Louis depot at 212 North Commercial street, to furnish a liberal supply of their famous grinking water, clear as crystal, sparkling as a diamond. This famous water comes in ten-gallon cans, and the committee in charge should see that these coolers are distributed throughout the city in convenient places to refresh the dusty and thirsty multitudes.

A Neglected Feature.

Quality has been a neglected feature with many retail grocers, and this no doubt, has had an influence in encouraging adulteration. It makes no difference under what conditions adulterated articles are sold or what excuse competition may furnish for their existence, the grocer owes it to his calling and to the consumers who trust him, to encourage the sale and use of Dr. Price's Delicious Flavoring Extracts because of their high standard and purity. Never substitute a low grade for a good quality. Cheapness means poorness and a loss of business in the long run.

ents From Other Big Planing Mill Caters Already Here Looking for Contracts-The Bosses Awaiting the Arrival of Laborers From Other Towns

The strike of the hands employed by the sash, door and blind factories is the largest ever known in this city. It involves the factories of Duross & Olcott, Fathman & Miller, the Philibert & Johanning Manufacturing Co., Fehlhammer & Schaefer, Henry Suess & Sons, Huttig Sash & Door Co., Hafner-Lothman Manufacturing Co., Phoenix Planing Mill Co., Lohse Patent Door Co., Great Western Planing Mill Co., Mississippi Planing Mill Co., Mechanics' Planing Mill Co., Crescent Planing Mill Co., Central Planing Mill Co., Mullanphy Planing Mill Co., Lauritz Peterson and A. Kuenzel. Over 600 men are

Eighteen factories are concerned in the struggle and a capital of \$1,200,000 is invested, with contracts for all of \$500,000 depending on the outcome of the contest. The mill proprietors met yesterday and formed a temporary organization, that may become a permanent one. Its purposes are to discuss the existing conditions and interchange views. At their meeting yesterday they advertised in various papers throughout the country for help to take the place of the strikers. The replies that they received yesterday and to-day confirm their opinion that they will be able to start up with a half or two-thirds force by the first of next week.

or two-thirds force by the first of next week.

STRIKERS STILL FIRM.

The position of the strikers remains unchanged. The indications are that a long fight is in prospect. Neither side has offered to solve the trouble by compromise. The strikers held a meeting again to-day at St. Louis Hall, Broad way and Biddle street. The attendance was fully as large as any day since the strike began, but nothing new was developed except that there were a few more recruits to the ranks of the strikers. Maj. R. J. Humber, President of the Crescent Planing Mill Co. 3227 North Ninth street, discussing the situation this morning with a Post-Disparch

ranks of the strikers. Maj. R. J. Humber, President of the Crescent Planing Mill Co., 227 North Ninth street, discussing the situation this morning with a Posr-Disparch than the morning with a Posr-Disparch were anxious to come back to work at the old schedule, but that they remained out because of sympathy with the strikers. "We cannot indorse the demands of the men," he said. "The contractors are standing by us and are urging us to firm. They have good cause for this. They know that a victory for the mechanics will mean an advance of 10 to 20 per cent to them."

There was a report in a morning paper that the carpenters would refuse to handle nonunion frame work. There was no evidence of the truthfulness of the statement to-day. But there is a serious possibility in connection with the fight. It is that if the fight continues for a couple of weeks the entire building trades of the city will be more completely tiled up than ever before in St. Louis. It will not take beyond a fortnight to use up the manufactured stock now on hand, and then the consequences of a general shut-down will follow. Duross of Duross & Olcott's Broadway planing mill was interviewed with reference to the situation and prospects of an adjustment.

Bosses will Not Tield.

"To yield to the men," he said," "would close down one-fourth of the mills in St. Louis, that is so far as large contracts are concerned. The trade to-day is paying as good wages as it has at any time within the past ten or twelve years. All over the country ten hours' labor is demanded, and in the up-river towns, Muscatine, Minneapolis, Oshkosh and other places the men are working eleven hours. Competition here is very close. Minneapolis, Oshkosh and other places the men are willing to return to their benches, but intimidation keeps them out."

The best mechanics in the trade earn \$44 per month, and the smallest wages are

The labor troubles may be augmented by

another strike. The prospects are anything but unsatisfactory for a contest between the Amalgamated Association, Association of Iron and Steel Workers and the Niedringhaus Rolling Mills. The former associations, one of the greatest labor bodies in the country, is now in session at Pittsburg, where two delegates are representing the 600 members in St. Louis. The schedule, as proposed by the manufacturers, means a deep cut in wages, and unless there is a modification made the chances are that a fight will be precipitated that will not be unlike the four months fight last year. Nothing, however, can be definitely said until the Pittsburg scale for 1892-98 is received here which will be in a few days, but Pittsburg advices indicate that the relations between the manufacturers and workmen are strained. The membership here is under the auspices of ivory lodge, which meets at Fourteenth and Angelrodt streets, North St. Louis. A meeting of the lodge will be held to-morrow night, but the strike prospect is not likely to be discussed in the absence of the scale from Pittsburg.

up a heavily-loaded cane and walked out as if to greet Evans. As soon as Flanigan came within striking distance he aimed a blow with the weapon at Evans' head. The latter closed and the two men reveled in a rough-and-tumble fight for several minutes. Flanigan downed Evans and both men received several scratches before Officers Hurley and Byrnes, who at no time were out of sight of the fight, arrived and parted the men. Flanigan gave Evans a parting kick as he was raised from the prostrate man. The broken cane lay beneath the feet of the police but in the Chestnut Street station the guardians of the law deciared that no cane was used. Cross charges were preferred against both the men.

At the office of the steamboat engineers, it was stated that a telegram from Cairo had been received with the announcement that the City of Hickman had been deserted by her crew and was laid up. The engineers are much displeased at the officious interference of the police. They allege that the blue coats are helping to recruit crews for the boats. They also allege that the City of Arkansas cannot secure a crew to go out this evening. The Anchor Line officials claim, on the other hand, that the steamer will have a crew. and that she will leave without any up a heavily-loaded cane and walked

Geo. Davis, a colored "rouster," \$5 years old, was found by Officer O'Brien in a semi-conscious condition in the doorway of the Bethel Home. Levee and Olive street about 10 o'clock last night. Davis said that he had been stabbed. He was removed to the Dispensary, where it was found that he had received a dangerous knife wound in the right side. He was taken to the City Hospital. Two different stories of the stabbing were told by him. Davis claims that he had been cut by a white man. He said that a stranger ordered him to treat and when he refused stabbed him. The other account given later by Davis was that he was sitting in the doorway of the house when two striking roustabouts accosted him and began abusing him for being a "scab." They demanded that he quit work, and when he tried to run away, he said, one of them stabbed him. It is thought that the stabbing is the outgrowth of the strike.

corrosive sublimate in Forest Park yesterday morning with suicidal intent, died at the City Hospital a an early hour this morning. Kelsey was 20 years old, lived at 4761 Labadie avenue and was employed as a solicitor by the St. Louis Fress Brick Co.s I ast ulght his mother visited him at the hospital. When she went up to his cot he drew her down to his breast and said: "You are the best mother in the world. I am so sorry for my brother and my sisters. I hardly know wby I did it, but God —." Hore he fell back exhausted and died in a few minutes.

Mrs. Kelsey was seen this morning and asked if she knew what prompted her son to commit suicide. She said: "Aleck was a good boy, a model boy. He was of a quiet disposition and never took part in the pastimes of other boys. It had been the ambition of his life to study for the ministry and when I told himseyers and years ago that I could not spare him he took its was a dovout the ear, make the came home about I 0 clock, and contrary to his usual custom, passed through my sitting-room without speaking to me. I wondered a king to me the subject of my son the family, and we were all much perplexed at his conduct. "Mrs. Kelsey says that her son probably became suddenly unbalanced on the subject of religion, and imagining that he had missed his calling resolved to end his life. Young Kelsey had had no trouble with his employers and they supposed that he was transacting some basiness at the time when he took poison.

The Coroner will hold an inquest at his late home this afternoon. The funeral will take place to morrow afternoon.

There was but seven feet of water there this morning. The officials at the Water Department said they could keep it at this height if the waste of water so common at this season of the year is stopped. The only inconvenience felt at present is the lack of pressure at points in the residence portion of the city and above the third story in the down-town business houses. The manufacturing concerns are safe so far, and their welfare is being looked after. A new traction shaft was sent for at once and is expected to arrive to-day, but it is put in process of the control of the daily consumption of 55,000,000 gallons can be easily meet. FROM the amount of dust being thrown by the Hill brigade there is reason to believe that it is sadly in need of its friendly concealment.

CHAIRMAN MURPHY'S anti-Cleveland manifesto merely serves to reveal more clearly to the Democrats of the country that Tammany is fighting for Tammany, not the Democratic party.

Gov. BoiEs is bluffing when he de clares he will not accept a nomination for the Vice-Presidency. He is too good a Democrat of the Jeffersonian type to allow pride to get the better of him.

IF, as reported, Tammany should support Morrison after HILL has been dropped it would be reliable evidence that the braves want revenge on the Democratic party for the defeat of their favorite.

sident's faith in his ments led him into a blunder when he spoke so sneeringly of the disappointments in the party convention. Their votes count twice against him at the polls.

The SUNDAY POST-DISPATCH accepts advertising on a distinct and unequivocating guarantee that its circulation in the City of St. Louis and suburbs is more than double that of the "Republic" and larger than any other Sunday newspaper.

DELEGATE ENGRAPTH of Mississipp says Mr. BLAINE's managers offered hir \$1,000 for his vote, which he indignantly refused. The Blaine managers showed very little sense in trying to stop the bull movement in Southern delegates.

Fusion is practically an accomplished fact in Kansas, and there is good prospect in North Dakota. If the movement suc ceeds it will be a severe strain on HAR RISON. Two or three Western States thus lost might throw the election into the House of Representatives.

Ir is said that JOHN C. NEW is booked for the Treasury portfolio in the event of Mr. HARRISON'S re-election. Mr. NEW is not known as a financier, but he beat QUAY and PLATT as a wire-puller and with the President this is the discrimi-

THERE is too much loose talk about "the only man who can beat HARRISON," meaning HILL, CLEVELAND or some other candidate according to the predilection of the talker. If the Democratic party has not enough vitality to win on its own merits it cannot be saved by superior virtue in the candidate.

* THE President used the power of th patronage to get his re-nomination, but fortunately through the defeat of the ce bill this power cannot be utilized so effectually at the polls. The people are free from the influence of the spoils system in all classes, and may make the dangerous Harrison precedent a warning by defeating its purnose in the election.

JUDGE KLEIN's indignation at having is natural, but he should view the dispo-

A SPRINKLING FRAUD

The Mayor's proclamation calling on the people to stint their use of water, and ordering the Sprinkling Commissioner to prevent a water famine by giving the sprinkling cart teams a still longer rest, is the coolest piece of impadence that ever emanated from a rotten "push" administration.

For months the sprinkling contractor have had their work done for them by continual rains, and while they have drawing pay from the city for work they did not do, have found plenty of other paying work for their teams to do. During all this time the river was nearly high enough to keep the settling reservoirs full without the aid of a pump. But when the rains ceased and the dust began to fly there was still plenty of other profitable work for the sprinkling teams, and the dust was permitted to fly and to keep on flying while an avalanche of demands for sprinkling poured into the POST-DISPATCH office from dust-choked tax-payers in every residence section of the

When these clamorous demands can b no longer ignored, out comes a proclamation from our "push" Mayor informing us that in the midst of a remarkably protracted flood period St. Louis is suffering from a water famine, and the sprinkling nust be still further reduced.

The gay humor of this talk about reduc ing the sprinkling is simply immense. There has been scarcely a pretense of sprinkling other than that done by the clouds, and if our water-works service under the present administration can not afford water for the sprinklers now, we may as well "slush" supply that Mayor Noonan's make up our minds that we are to pay the sprinkling tax without getting any sprinkling through the dry months to

THE ADVANCE OF PLUTOCRACY.

The first sign of the reign of plutocracy is the opportunity to purchase official honors and privileges.

This is the sign the Republican party has hung in our political firmament. It is selling honors for the purpose of buying power. WHITELAW REID is an able man out no one doubts that it was his financial not his intellectual endowments that gave him the vice-presidential nomination. His predecessor, MORTON, got his place solely through his wealth and willingness to contribute liberally for his party. It was WANAMAKER's millions that made him Postmaster-General and ELKINS is Secretary of War by virtue of money, not

statesmanship. Under the rule of latter-day Republican ism wealth, not worth; money, not merit; financial crait, not political wisdom, are rewarded with political honor and trust in exchange for funds with which to corrupt voters and buy their consent to the degradation of the nation.

The whole evil is not confined within the selling of honors. Money-making privileges are also sold, and the funds with which the people are disgraced are wrung from them through discriminating laws and taxes and by the aid and connivance of the Government.

The party of plutocracy permits the peo ple to be looted in order that with some of the loot it may purchase the perpetuation of its power. It is crying for the privilege control of a great political organization by the money bags is the greatest menace to their rights and liberties that the people of this country have ever confronted.

CARL SCHURZ thinks that CLEVELAND vas weakened in 1888 by the possession of federal patronage and that HARRISON will suffer from the same in 1892. In other words, individual appointments are outnumbered by individual disappointments and in that respect the occupant of the White House is always at a disadvantage. It has proved so in the past, not only in elections but in nominating conventions. Mr. HARRISON, it is true, secured a renomination by the aid of a solid phalanx of officeholders, but they represented not the strength, but rather the helplessness of the party in one section of the country. "Pernicious activity" is not liked in States where the party counts for something in elections. Mr. CLEVELAND does not now suffer from this incubus and Mr. SCHURZ is right in considering it an advantage as against the Republican nomines.

MR. WHITELAW REID has sacrificed his self-respect for an honorable office which is not honorable if got in that way. The so-cailed settlement of a fifteen-years fight is a transparent political dodge, a dicker of principle for office. He has had few sympathizers in his war against organized labor, but his persistence shows what his real and honest opinions are. HIt cannot be doubted that he still holds these convictions. His action in the matter will hardly be misunderstood. He has gained a few supporters among the trading class of laborites, but he has lost many friends

Ir must not be assumed that because PLATT, QUAY and CLARKSON fought HAR-RISON'S nomination they will oppose his election. They are politicians of the Judge NORMILE's work thrown upowhim what-are-we-here-for type, and when one combination or game fails immediately arsition of the latter to shirk with charity, range another. Although they despise

This is the summer season, when Judge HARRISON they will be very ready to make a "deal" with him, and he has dealt with them before. The President will no doubt promise anything they ask and give bond for performance. When this is done we that old ocean's shore would be a dismal shall see another blocks-of-five campaign on a bigger scale than the last. So far as the workers are concerned HARRISON will have a complete organization behind him with the sinews of war. His losses will appear in the falling away of decent Republicans who do not like bribery as a political influence, and who disapprove of the force bill.

> As THE hostility of the Hill men to CLEVELAND is the only apparent obstacle to the nomination of CLEVELAND their claim that he could not be elected was in the nature of a threat. If their pledges to support the nominee, obtained by the WORLD, are worth anything the danger of their opposition has been wiped out. Their threat, therefore, is now a bluff, and it remains to be seen whether the Democratic Convention can be bluffed.

The Railroad and the Supreme Court.

From the Springfield (Mo.) Democrat. Judge Sherwood has been on the Supreme Court bench for twenty years past. In all that time he has done nothing to advance the naterial welfare or prosperity of Southwest dissourt. He has never even returned to Springfield to cast his vote except when he was on the ticket himself, notwithstanding it s well known and can be established that he asually carried in his pocket a thousand-mile allroad ticket, which was a gift to him from railroad friends.

I think that it is the worst kind of cruelly to animals to make two horses pull eight tons about four miles on a gallop, and when they reach the fire can do no good, because the fire had too big a headway. I do not mean to say that the drivers treat them cruelty, but it is the distance and the time they have to make. To the Editor of the Post-Dispatch: Only a week ago I advised, in fact, begged the Post-Disparch to put its fine organ of a ose down to the affairs of the offenders of city ordinances and the struggling deenders thereof, but now-only a week after will say don't, don't do it under any cir cumstances. A well enough respectable number of the engineers in trying to present their case in the Second District Police Court were astonished to be styled a lot of drunkards and God knows what else by the honorable attorney of the respectable defendant, Mr. Heller. Holy Mossel what would this very honorable attorney have done with the Post-Disparch, had it takes any part in it?

FRANCIS' FAVORITE.

The Governor Denies That He Is In a Deal With Hill.

HE IS FOR CLEVELAND AND HAS ALWAYS BEEN.

Foundation for the Report That He Would Try to Halp Out the New York Governs or-Senator Cockrell's Position in the Fight-Mr. Bond Congratulated-Polit-

Gov. Francis was in St. Louis to-day. He and Delegate-at-Large Charles C. Maffitt, one of his most intimate, personal friends, will go up to Chicago to-night together. The Governor was seen to-day at the office of the Merchants' Bridge Co., and was asked who he thought the convention would

The Governor was then asked about the stories circulated in Chicago intimating that he had agreed with Senator Hill to throw his influence to the Senator at a critical moment in the convention and carry the Missourians with him. The Governor, it was said, was to get in return for this the portfolio of the Secretary of the Interior. The report has been given general currency in St. Louis by some talk of Col. Dave Armstrong, who is a Cleveland man from the top of his high slik hat to the toes of his broad soled shees. Col. Armstrong said to day of his high slik hat to the toes of his broad soled shoes. Col. Armstrong said to-day, talking with Col. N. F. Cleary in front of the Laclede Hotel, that he knew positively that the Governor had tried to get the State Committee to call a convention Feb. 22, hoping to get a Hill delegation sent to Chicago, and that John Allen of Piedmont and Jasper Eurks had procured the miscarriage of the scheme. This part of the business of the central committee never became known, the Colonel said, but it will be easily proved that the attempt was made and defeated. Col. Armstrong has offered to produce affi-Col. Armstrong has offered to produce affi-dayits, if necessary, to show the truth of the

Gov. Francis listened to a repetition of all this with an air of vexation, while Maj. C. C. Rainwater, who had stopped his writing to listen, smiled. The Governor first spoke of the reports from Chicago. "The story is wholly false," said he, with more warmth than he generally permits himself. "I have never had such an agreement with Mr. Hill. expressed or implied. THE GOVERNOR'S DENIAL. ment with Mr. Hill, expressed or implied.
The report is made out of whole cloth. My position on this matter is well known. I have been a Cleveland man for eight years, and have never leaned to any other candidate.

"What about Col. Armstrong's story?" questioned, too, by the Post-Disparch, and and denied it.
"Well, the whole thing is simply absurd,"

well, the whole thing is simp said the Governor. "Missouri's land and so am I." "Who is your second choice?" "I have none." "Who for Vice-President?"

"Who for vice-President"

"Oh, I don't know," said the Governor, "I hadn't thought of that."

RUSSELL IS HIS SECOND CHOICE.

John D. Perry, the Governor's father-in-law, Syd Francis and Tom Francis, his two brothers, and Mr. Maffitt were all very emphatic to day in denying the story. All of haw, Syd Francis and Tom Francis, his two brothers, and Mr. Maffitt were all very emphatic to day in denying the story. All of them said that the Governor was now, as he had always been, an uncompromising Cleveland man. On 'Change it is generally believed that the Governor will be made Secretary of the Treasury if Cleveland is nominated and elected. The leading men down there generally have a pretty fair idea of the Governor's plans. None of them think that he wants anything more politically from Missourl, at least for the present. His second choice is thought to be Russell of Massac usetts, who, he believes, can carry New York, New Jersey and his own State easily, and his most intimate friends expect to see him using his influence in the Missouri delegation for the New England Governor if it is sure that voting for Cleveland is useless. Mr. Maffit, it is thought, wavers between Russell and Gorman of Maryland, with Cleveland out, but he and the Governor will go together if they leave Cleveland.

"Did he intimate that he favored Gor-"No, he didn't. He did say something about the logic of the situation—the State wanting bi-metallism and Cleveland being against silver—and I said to him. "Senator, you know there is no logic in politics."

"Didn't you understand that to indicate that he was wavoring us to Cleveland?"

"No, sir, and it didn't. Cockrell is for Cleveland, you may depend on it."

Mr. Bond Congratulated. Henry W. Bond was kept busy all day acknowledging congratulations. He came down from Hannibal last hight and was at his office early this morning. Among his callers were several of the county delegates who supported smith and Woodsides in the convention. They all wished him a big majority, and promished the hearty support of their respective sections.

One of the most pleasing congratulations received by the nominee came from his old home in Tennessee in the shape of a telegrain from H. C. Nolan, President of the incorporated town of Brownsville. It read as follows:

Henry W. Bond, St. Louis: The nomination of Mr. Bond is equivalent to his election. The district has a Democratic majority of at least 12,000. People's Party Convention.

The local managers of the People's Party are making extensive preparations for the State Convention, which meets next Tuesday State Convention, which meets next Tuesday in Sedalia. This convention will nominate delegates to the National Convention which meets July 4, at Omaha. When this is done a full State licket will be chosen. The leaders expect to have H. E. Taubeneck, the Chairman of the National Executive Committee, on hand to deliver an address. The only name mentioned for Governor is Leverett Leonard of Mont Leonard, Saline County. Leonard is the President of the State Alliance, and a pronounced advocate of all the demands of the Ocala platform. Prior to his joining the People's party he was a strong Democrat. He will, unless he declines, receive the nomination by acclamation.

the Pennant, and That St. Louis Will Win an Occasional Game If Left Alone -Racing, Pugilism, Base Ball and Sporting News in General.

The Garfield Park Derby, a sweepstake for year-olds, distance one mile and a quarter, for a guaranteed purse of \$20,000, will be run o-morrow at Chicago over the West Side rac

The value of the stake induces the reflection that within a few years the West will not be one whit behind the East, either in the largeone whit behind the East, either in the large-ness of the purses offered or the quality of horses contending, in these big racing events. The three classical Eastern handleaps, the Brooklyn, Metropolitan and suburban will be matched on this side of the Alleghany by the Garfield, American and Kentucky Derbies, as well as by the Hesing, Grant and Queen Isabella stakes. Reflec-tions on the cause or inevitable results of this tendency, although gratifying to race lovers, are superfluous.

are superfluous.

The Garfield Derby closed with ninety subscribers, among them W. E. Applegate's Prince of Darkness, Bashford Manor's Bashford and Azra, R. Bradley's Biltzen, the Charter Oak stables, Jim Murphy's Lord Rudolph, Churchill's imported Simon Renard, Ed Corrigan's Lew Wier, Phil Dwyer and Huron, Gambrinus stables' Gayoso and nard, Ed Corrigan's Lew Wier, Phil Dwyer and Huron, Gambrinus stables' Gayoso and Wightman, R. T. Holloway's Wadsworth, W. A. Hopkins & Co.'s Chief Justice, the Kendall stables' Yo Tambien, D. J. McCarthy's Romair and Bernardo, Scroggan Bros.' Miss Knott, the Oakdale stables' Falero, R. A. Swigert's Carlsbad and Milton Young's Two Bits. It is not likely that all of the above will face the starter, but \$20,000 stakes are such infrequent plums that by far the best field of 2-year-oids ever gathered together in the 2-year-olds ever gathered together in the West will face Starter Pettingill to-morrow

Madsworth, Bashford, Azra, Huron, Wightman, Yo Tamblen, Tom Elliott, Little Billle, Blitzen, Falero, Bernardo, Romair, Jim Murphy, Carlsbad, Miss Knott and a number of phy, Carlsbad, Miss Knott and a number of others whose chances for being successful when compared with those already men tioned are slight indeed, are regarded as sure starters. Ed Corrigan in all probability will be represented by another horse besides Huron. It is pretty definitely settled that Lew Weir will be the pace maker. The Gambrinus Stable, which anticipates carrying off the prize with their \$10,660 crack Wightman, is expected to send Gayoso along to assist him in the running. Chief Justice and Simon Renard will not be Cayoso along to assist fails in the running. Chief Justice and Simon Renard will not be among the starters. There is great diversity among horsemen as to the probable winner, nearly every colt having an enthusiastic following. The names of Wadsworth, Asra, Bashford, Huron, Yo Tamblen are each used to conjure with. The winner will be among the left. Who can pick it?

Bashford, Huron, Yo Tamblen are each used to conjure with. The winner will be among the lot. Who can pick it? A week ago Wadsworth was a hot favorite but heaps of money have gone up on Azra, Huron and Yo Tamblen. Bashford has gained pienty of warm supporters since his spiendid victory over Yo Tamblen at Latonia Tuesday in the fastest time ever made over the track. Yo Tamblen's supporters claim performance was even better, as she conceded her victor fifteen pounds. The owners of the Bashford stable, however, have pinned their faith on Azra. His spiendid victory in the Kentucky Derby over Huron and Phil Dwyer, will give them a shade the better of it in the betting over the former horse. Mr. Corrigan and his friends are backing the colt Huron with a confidence that bodes po good to those who are not impressed with his chances. Last year he ran second to His Highness in the great Futurity Stake, and this year he was next to the winner in the Kentucky Derby. Further than this little is known of his work this season, except that he has been specially trained for to-morrow's event in Louisville. Mark Overton, one of the biggest favorites in the West. will have the mount on him, another fact that must not be overlooked in weighing his chances. The California cracks are all unknown qualities, but their owners are confident that they will be in it at the finish. The unbeaten Wadsworth has by far the largest number of admirers, and there will be widespread disappointment if he falls to land first. His supporters declare that just how he could be defeated, if in condition is a mystery. He defeated the

with Wadsworth, Azra, Huron, Bashford and Yo Tambien to face the starter what a grand betting affair it ought to be. Judging from form Wadsworthought to finish in front of the bunch, with Azra, Bashford and Huron neck and neck for the place. This anticipation of the finish may be wrong, but no matter who wins an opportunity will be given to see the grandest field of 3-year-olds ever gathered together in the West, and it will be a horse race from start to finish, no matter who wins it.

Some interesting sport ought to take place at the Fair Grounds to-morrow. The programme includes two stake events. The first will be the Osage Stake, for 2-year-olds exclusively, and will be decided over a six-furiong course. The association has a six-furlong course. The association has added \$2,000 to the stake, and out of 104 subscribers such good ones as King Lee, Faistaff, Miss Mosely, Michel, Lew Martin, Jack Kearney, Hugh Peary, Rees, Tom Cook and Goida will in all probability line up before Starter Caldwell. King Lee, if past performances count for anything, is unquestionably the best horse in the lot, although Faistaff gave him quite a run last Tuesday in the Meramec. The seventh event is the cyclone handicap, a sweepstake affair for 3-year-olds and upward, \$1,000 added. This event will be run over a seven furlong course, and among the innety-nine subscribers, almost every crack performer in the East is found. The great Aloha is down to pack the top weight, 130 pounds, Guido will shoulder three less; da Pickwick comes next with 116, Oregon Eclipse and Brazos, providing they start, will each carry 113, Boliver Buckner and Ethel Gray are in at 112 each, and the rest range downward to 85. Should he start, Aloha will easily have the call in the betting and will be a hard horse to beat.

The Mississippi stake, which was the third

The Mississippi stake, which was the third race run yesterday at the Fair Grounds, was of course the principal feature of the afternoon's sport. Only three starters lined up pefore Caldwell, namely, Bolivar Buckner, Chief Justice and Goldstone. Chief Justice before Caldwell, namely, Bollvar Buckner, Chief Justice and Goldstone. Chief Justice closed the fuvorite, selling at even money, Goldstone had second call at 9 to 5, and Bollvar Buckner closed at 4 to 1. Notwithstanding the fact that he was down to pack the top weight 128 pounds, a large amount of money was placed on Levy's son of Blazes at that price. Charley Thorpe, who came on from Latonia especially to ride him, took him to the front at the head of the stretch and after a royal battle with Goldstone landed him a winner by a neck. Chief Justice was a length benind the pair. Coronet, who ruled an equal second choice at 6 to 1 with insolence and Hopeful; Bo Peep, a 5 to 8 on favorite; Maud, who closed at 8 to 1; Nancy Hanks, an outsider, who was quoted 12 to 1; Pennyroyal, another outsider, who closed at 8 to 1, and Come to Taw, a 8 to 1 third choice, were the successful ones. The summaries follow:

Charley Comiskey and his Cincinnati Reds arrived here this morning direct from Cinclinnati, where they stopped over yesterday on their way to this city from Boston. Speakthat just how he could be defeated, if in condition is a mystery. He defeated the acknowledged crack of the West, Aloha, and did it over a one and one-fourth mile course in so handy a manner as to convince those who witnessed the performance that the distance was just to his liking.

Aloha is considered the peer if not the superior of any horse in to-merrow's event and his vanquisher is reckoned on by many as a sure winner.

The Gambrinus Stables' Wightman and Bob Sweigert's Carlsbad arelborses that haveldone good work during the season, but victory for either would come in the nature of a big sure prise. said that it more than realized his expectations. "When one," said he "takes into consideration the fact that just before we started East I was compelled to suspend three of my best men the work we accomplished is remarkable. The Reds have put up some of the greatest ball witnessed on the diamond this season. That fourteen-inning tie contest we played with Boston has not been equaled yet, and the feat we performed in Brooklyn Decoration Day, winning two eleven-inning contests, will go down into history. That story about the sport being on the ragged edge in the East is all rot. In Boston we played to over 7,000 people last Saturday and the poorest crowds we struck anywhere was at haltimore, where they averaged in the neighborhood of 2,000. When one considers the poor work the home team has been doing at that point, an average of 2,000 daily attendance seems remarkable. When questioned as to the outcome of the first championship race Comiskey said that Cincinnati stood as good a chance as any team and would surely finish better than any of the Western clubs. "The Browns," said Comiskey, are playing good ball. Their work in the East, especially at Brooklyn and Boston, caused considerable favorable comment. I still believe that the cause of the club's poor showing lies in the management. Von der Ahe is not handling the club properly. While of course the team is not a pennantwinner by any means. I do believe that if there was no interference on his part it would hold a fair position."

LOUISVILLE TO-MORROW. The Kentucky Colonels, who have not yet played in St. Louis this season, will make their debut to-morrow, playing the Browns a series of three championship games a series of three championship games at Sportsman's Park. SORE THROATS.

Sore throat is the cause of more than half the trouble that comes from contagious diseases. The germs of these maladies such as scarlet fever. diphtheria, mumps, measles, smallpox and the like float in the air. They can be taken into the human system without danger, if they do not find an abraded surface. If they do, they enter the blood and swarm in millions. It is well known that diphtheria can be taken from a wound on the skin on the body. It is particularly noticeable that when such a malady as diphtheria rages it always attacks people after they have caught a slight cold. When you take cold, therefore, and your throat is sore get a bottle of REID'S GERMAN COUGH & KIDNEY CURE at once and take it freely. If your druggist will not order it for you write to us. a separate gallery. About 150 reporters were present. The proceedings were opened with a prayer by His Grace, the Primate of All Ireland, after which the forty-sixth Psalm, "God is our refuge and our strength," was read by Rev. Nathaniel M. Brown, D. D., ex-Moderator of the General Assembly

Mr. Robert MacGeagh then moved that the chair be taken by His Grace, the Duke of Abercorn. Sir Wm. Millard, M. D., of Londonderry, seconded the motion. The motion was carried and the Duke was escorted to the chair and addressed the convention. Uron the conclusion of the speech, Sir Wm. Quartus Ewart, D. D., proposed the following

1. That we avow our fixed resolve to retain un-changed our present position as an integral portion of the United Kingdom and to protest in the most unequivecal manner against the passage of any measure that would rob us of our inheritance in the

measure that would rob as of our inheritance in the imperial parliament under the protection of which our capital has been invessed and our homes and rights safeguarded.

2. That we record our determination to have nothing to do with a parliament certain to be controlled by men responsible for the crime and outrage of the Land League, the dishonest yof the plan of campaign and the cruelties of boycotting, many of which have shown themselves the ready instruments of elerical domination.

of cierical domination.

3. That we declare to the people of Great Britain our conviction that the attempt to set up such a Pariament in Ireland will inevitably result in disorder, yiolence and bloodshed, such as have not been expired. perienced in this century, and announce our resolve to take no part in the election or the proceedings of such a Parliament, the authority of which, should it ever be constituted, we shall be forced to repudiate.
4. That we protest against this great change which

involves our lives, property and civil rights being treated as a mere side issue in the impending elec-

treats as a truggle.

5. That we appeal to those of our fellow countrymen who have hitherto been in favor of a separate Parliament to abandon a demand which hopelessly divides Irishmen, to unite with us under the imperial legislature in developing the resources and furthering the best interests of our common country. furthering the best interests of our common country.

Lord Roseberry, speaking in Kelsoe, Scotland, yesterday, said that when the details of the home rule measure were divulged it would be found to be as firmly, settled as Magna Charta. It would retain to the Imperial Parliament those powers which the union was accomplished to retain and would affect an opportunity to establish a tribunal to which any difference between the Imperial Government and the Irish Parliament rial Government and the Irish Parliamen night be referred. Home rule with such tribunal would be the means of cementing firmly the union of the different sections of the British Empire. It was a crime, he said to hint at civil warfare to accomplish political control of the British Empire. cal ends. The Ulster convention was in ended not to save Ireland or Protestantis out to save the Government.

PALACIO RESIGNS.

VENEZUELA'S DICTATOR FORESTALLS THE IN EVITABLE.

CARACAS, Venezuela, June 17 .- President Palacio has resigned. The situation remain quiet, little or no excitement prevailing. The xecutive authority of the State has been assumed by the Federal Council until such time as Congress can be convened for the purpose of electing a successor to the presidency. It is expected that the Congress will meet for that purpose almost immediately. The cause of the revolution, which may now end with President Palacio's resigna-tion, was that officia'ls unconstitutional act n extending his term beyond the legal limit under a pretense of calling together a convention to revise the constitution. Gen. Crespo, a trained soldier, heads the forces of the revolutionists, and in every battle of importance since the first engagement in December last has been successful.

The supposition is that either Crespo himself or Dr. Rejos Paul, ex-President of the Republic, whom Palacio exiled, will be called upon to take the reins of government.

RIOT AT A BULL FIGHT.

MAYOR SAVES HIS LIFE BY PLIGHT-ON KILLED. Madrid, June 17 .- A riotous demonstration vas made yesterday by a crowd that attend ed a bull fight at Linares, in the Province aon. The spectators were dissatisfied with the way the fight was conducted and de-manded that more horses be put into the manded that more horses be put into the ring. The Mayor refused, and the crowd pelted him and the bull fighters, with bottles, sticks and dirt. The bull fighters hastily left the ring, which was immediately invaded by the crowd. The bull which had been intended to furnish sport for the crowd was still in the area. He objected to the invasion of the crowd and became infuriated. Some of the more sensible of the mob saw their danger and with cries of "Quidado! Cuidado!" leaped work the woodwork inclosing the ring and made their escape. Others did not hear or paid no attention to the warning. The bull then charged directly into the middle of the mob. Hen were caught upon his borns and tossed in every direction. The crowd sought safety

Irish Home Rule Denounced by a Monster Convention.

Belfast, June 17.—The great Ulster convention to consider the negative side of the home rule question opened in this city today. Work was nearly suspended and houses were decorated with flags and bunting and many mottoes expressive of the Ulsterites determination never to submit to the rule of an Irish parliament. The convention is held in an enormous pavilion, erected for the purpose at the intersection of College Park avenue and Rugby Road, and the building was crowded to its utmost capacity with delegates and enthusiastic opponents of ing was crowded to its utmost capacity with delegates and enthusiastic opponents of home rule.

About 10,000 delegates were present. Seven thousand of these were seated in the arena of the building and 3,000 in the gallery. Three hundred distinguished strangers had seats in a separate gallery. About 150 reporters were The crowd were afraid to make any attack on the barracks, so they withdrew. The rioting, however, was continued in other parts of the town until nightfail, when the authorities got the upper hand of the mob.

Reports Coming in of the Cyclone's Deadly

Work, DELAVAN. Minn., June 17 .- The cyclone which passed near this place Wednesday afternoon crushed a barn belonging to H. Duffy and thence passed on to the farm of C. Leitenberger. The family seeing the funnei shape of the approaching storm, ran for the cellar. Part of the family succeeded in reaching this place of shelter and were uninjured. The storm struck the house squarely and in trice had reduced it to a mass of splinters One of the children, a girl of 7, was found about one hundred feet from the cellar dead Leitenberger and another of the children

were seriously injured. One mile east the house of L. Pitcher was unroofed and the wind-mill and barns were carried away. Next in the path of the storm stood the farm of Mr. Armstrong. His house was picked up and moved bodily about six een feet. A large barn filled with horses and cattle was moved from its foundation and the upper story was twisted off level with the second floor. The granary, hog barn and machine sheds are in ruins. The storm passed on sweeping everything in its path, destroying a building and killing three persons two miles further east. A late report gives as the number killed in this vicinity six and thirty injured. Delayan is on the Southern Minnesota Division of the Chicago, Milwau-kee & st. Paul, between Winnebago City and

ALBERT LEA, Minn., June 17.—Every report adds to the list of injured and loss of property. Private advices show that three children were killed in Martin County, but the list in Faribault County is a long one and hard to ascertain. Thus far six deaths are reported in that county and it is hoped even this will be reduced by later intelligence. The injured list is a long one, while the destruction of property cannot now be estimated as the path of the cyclone was through as rich farming country as could be found in the state.

WELLS, Minn., June 17 .- A most disas trous cyclone swept over this County Wednes day night, destroying everything in its path Its course was from North to South. Following is a partial list of killed and injured: John Brown, German farmer, killed; wife fatally injured; Herman Breyner, killed; Mrs. John Matusaick, killed; Malind Steen, wife Pietros, son, killed; Mrs. John Della, killed; Albert Klingbert, two children badly hurt; Charles Madehert, daughter, arm broken leg broken and another daughter injured leg broken and another daughter injured internally; Herman Hilb's son, severely injured; Mrs. Medehert, seriously injured; Mrs. and Mrs. Lightenberger and six children injured; one child dead; Mr. Iverson's wife and three children said to have lost their lives. Houses, barns and machinery in the track of the storm were totally wrecked and a large amount of stock killed. The cyclone was accompanied by a great electrical display.

CLOUD-BURST AT SCRANTON.

SCRANTON, Pa., June 17 .- A cloud-burst inndated the streets of this city last night the flats on South Side are covered and the water has risen to the second stories of hun of Dunning's dam. Lightning, which was incessant for five hours, struck six houses within the city limits, killing three persons and stunning several more. The troiley wires are down all over the city and travel by street cars has been suspended. There are reports of loss of life in the flats in the southern part of the city. Reports of widespread damage in Lackawana and Luzerne Counties are coming in. Washouts have occurred on the Delaware and Hudson railway tracks. of Dunning's dam. Lightning, which was in-

Fuller of Belvidere, Ill., twelve miles north of here, completely wrecking almost everything on the place. Five large barns are totally destroyed, and the houses somewhat damaged. As far as heard from no lives were lost there. The loss at this place and others will be fully \$35,000.

STRUCK BY LIGHTNING. DUBUQUE, Io., June 17.—Three terrible storms swept through this city in the last twenty-four hours. An immense amount of rain has fallen, doing great damage to the crops. During the storm four men were struck by lightning. Three of them have recovered; the other, Fred Mederman, is in a precarlous condition.

THE SILVER STATES.

A Prediction That All Will Vote for the Democratic Nominea. Last night William S. Darby of Aspen, Colo., formerly a member of the Colorado

Legislature, arrived in the city and is at the Lindell. "I read with Legislature, arrived in the city and is at the Lindell. "I read with great interest the political review in the Post-Disparch of yesterday evening," he said," but think that it should be corrected in one respect. Several States are put in the Republican column that have always belonged there before, but should now be transferred to the doubtful list, if not to the Democratic column. Colorado is one of these. I have always been a Republican, but since the nomination of Harrison have decided to vote for the Democratic candidate, no matter who he may be or what platform may be adopted. The Republican silver plank does not in itself declare hostility to free silver, but with Harrison in the Presidential chair we know that we have nothing to hope for in the direction of free coinage. With the Democratic nominee, no matter what his individual opinions may be, this is not the case, for the silver States can hope for some sort of a free coinage law from a Democratic administration. The placing of silver on an equal footing with gold is vital to the interests of Colorado. We are silver men first, party men afterwards. The same reasoning applies to Nevada, idaho and Montana, and unless I am very much mistaken all will be found in the Democratic column in November."

Mr. Darby goes to Ohicago, where he will confer with the Democratic delegates from the silver States.
